Having a hard time locating a school on CWS/CMS?

We're here to help....

If you already know the school's address, and know what type of school it is (i.e. Public/Private/Independent or a Home School), let's begin with these few easy steps:

- Go to the Education Notebook Folder
- Under 'School Category,' select the type of school (Public/Private/Independent or a Home School)
- Enter the school's Zip Code:
- Hit the 'Tab' button
- Click 'OK'

The schools are listed alphabetically, but sometimes it is necessary to scroll down the page, in order to find newly-added entries. If, however, you are still unable to find the school that you are looking for, please send an email to us, and we'll happily locate or add it for you. The more information that you can provide on the school, the easier the search. Please send your requests directly to:

youth.education.support@dcfs.lacounty.gov

Once the school has been entered, we will send a confirmation email, with steps to lead you directly to your school!

Hope this helps!
