MARYVALE GROUP HOME CONTRACT COMPLIANCE MONITORING REVIEW

The Los Angeles County Department of Children and Family Services (DCFS) Out-of-Home Care Management Division (OHCMD) conducted a review of Maryvale Group Home (Maryvale) in August 2011, at which time they had one 60-bed site with 49 female placed DCFS children.

Maryvale is located in the First Supervisorial District and provides services to DCFS foster youth and Probation Department youth. According to Maryvale's program statement, its stated goal is "to create a healthy, therapeutic milieu in which each individual child is able to grow physically, emotionally, educationally and spiritually." Maryvale is licensed to serve a capacity of 60 children, ages 6 through 17.

For the purpose of this review, a sample of seven currently placed children and three discharged children were selected, and their case files were reviewed. The currently placed children were interviewed.

The placed children's overall average length of placement was nine months, and the average age was 12. The files of three discharged children were reviewed to determine if the destination of placement was per their permanency plan and if the children were meeting their Needs and Services Plan (NSP) goals at the time of discharge. Five staff files were reviewed for compliance with Title 22 Regulations and County contract requirements.

Five children were prescribed psychotropic medication. We reviewed their case files to assess timeliness of Psychotropic Medication Authorizations (PMAs) and to confirm documentation of psychiatric monitoring was maintained as required.

SCOPE OF REVIEW

The purpose of this review was to assess Maryvale's compliance with its County contract and State Regulations. The visit included a review of the agency's program statement, administrative internal policies and procedures, seven DCFS placed children's case files, three discharged children's case files, and a random sampling of personnel files. A visit was made to the facility to assess the quality of care and supervision provided to children, and we conducted interviews with the children to assess the quality of care and services they were receiving.

A copy of this report has been sent to the Auditor-Controller (A-C) and Community Care Licensing (CCL).

SUMMARY

Overall, the children interviewed indicated they were provided with good care and appropriate services, were comfortable in their environment and were treated with respect and dignity. The children interviewed stated they receive educational support, opportunities to plan recreational activities, and they felt safe living at Maryvale.

At the time of the review, Maryvale needed to develop timely and comprehensive NSPs to include all required information in accordance with the contract, including documentation of monthly contacts with DCFS Children Social Workers (CSWs). Further, Maryvale needed to ensure placed children attended school as required, received timely initial dental examinations, and ensure the children were satisfied with their meals.

In conclusion, Maryvale's administration was receptive to implementing some systemic changes to improve compliance with regulations and the contract. The Vice President of Programs was motivated to make the necessary corrections regarding the deficiencies highlighted during the review.

NOTABLE FINDINGS

The following are the notable findings of our review:

- Four of 24 required NSPs were not completed in a timely manner. The Vice President of Administrative Services stated that all completed NSPs would be submitted to the Coordinator of Residential Services for a review at least five working days prior to the NSP due date and submitted to the DCFS CSW within ten days after the NSP due date.
- Of the 24 initial and updated NSPs reviewed, four were not comprehensive in that they did not include all the required elements in accordance with the NSP template. The Vice President of Administrative Services stated that a thorough review training on the NSP was provided on November 22, 2011 to the treatment team staff, and beginning immediately, Maryvale shall create a more detailed and comprehensive report.
- Five of seven children's case files did not have documentation confirming that CSWs are contacted monthly by Maryvale staff. The Vice President of Administrative Services stated that the Assistant Director of Mental Health will ensure that each therapist will appropriately document each contact with a resident's CSW on a monthly basis, and the information will be included on the NSP.
- Five of seven children interviewed stated that the food served at Maryvale does not taste good. The Vice President of Administrative Services stated that residents would be encouraged to provide their input regarding food quality via their group's daily community meeting and/or via their representatives who participate in the monthly Residential Council meetings and the information would be transmitted to the Dietary Section and be utilized to improve food services.
- Two of seven children's case files indicated that their initial dental examinations were not timely. The Vice President of Administrative Services stated that within the first week after admission, the nursing supervisor will ensure a dental examination for a new resident is scheduled within the first 30 days of placement. In the event an appointment could not be scheduled at their on-site dental office within the first 30 days, the nursing supervisor would ensure the dental examination was scheduled at a dental office in the community.

A detailed report of our findings is attached.

EXIT CONFERENCE

The following are highlights from the Exit Conference held October 11, 2011:

In attendance:

Michael Giron, Vice President of Administrative Services; Dr. Denise Gonzales, Director of Mental Health; Janel Grobes, Assistant Director of Mental Health; Dr. Lorna Pham, Quality Assurance and Improvement Manager; Karen Ward, Coordinator of Adolescent Residential Services; Janice Kasai, Administrative Residential Support; Cora Ramos, Administrative Residential Support; and Jui Ling Ho, Monitor, DCFS OHCMD.

Highlights:

The Vice President of Administrative Services was in agreement with the findings and recommendations made during the review. He expressed that staff members will continue to make every effort to ensure that all children receive initial dental examinations within 30 days of placement and all the monthly contacts with DCFS CSWs will be appropriately documented.

Maryvale provided an approved written CAP addressing each recommendation noted in this compliance report. The approved CAP is attached.

We will assess for full implementation of recommendations during our next monitoring review.

If you have any questions, please call me or your staff may contact Aldo Marin, Board Relations Manager, at (213) 351-5530.

CONTRACT COMPLIANCE MONITORING REVIEW**

**7600 E. Graves Avenue
Rosemead, CA 91770
License Number: 191500468
Rate Classification Level: 12**

The following report is based on a "point in time" monitoring visit and addresses findings noted during the August 2011 monitoring review.

CONTRACTUAL COMPLIANCE

Based on our review, Maryvale Group Home (Maryvale) was in full compliance with six of 10 sections of our contract compliance review: Licensure/Contract Requirements; Facility and Environment; Psychotropic Medication; Personal Needs/Survival and Economic Well-Being; Discharged Children; and Personnel Records. The following report details the results of our review.

MAINTENANCE OF REQUIRED DOCUMENTATION AND SERVICE DELIVERY

Based on our review of seven children's files and/or documentation from the provider, Maryvale fully complied with eight of 13 elements reviewed in the area of Maintenance of Required Documentation and Service Delivery.

We noted that of the 24 initial and updated NSPs reviewed, four NSPs were not timely, and four were not comprehensive in that they did not complete all the required elements in accordance with the NSP template. Some NSP quarterly sections lacked detailed information regarding the child's progress toward the identified treatment goals, while others did not update the child's status and some treatment services were not listed in the NSP Treatment Section. It was further noted that Maryvale did not appropriately document monthly contacts with DCFS Children Social Workers (CSWs). The Vice President of Administrative Services stated that a thorough review training on the NSP was provided on November 22, 2011, for the treatment team staff on site to ensure NSPs are timely, comprehensive and children's progress towards achieving their NSP case goals. Further, the Assistant Director of Mental Health would ensure that each therapist appropriately documented each contact with a resident's CSW on a monthly basis and the information was included on the NSP.

Recommendations:

Maryvale's management shall ensure:

1. NSPs are developed timely.
2. NSPs are comprehensive, including all required elements in accordance with the NSP template.

3. Monthly contacts with CSWs are appropriately documented.

EDUCATION AND WORKFORCE READINESS

Based on our review of seven children's case files and/or documentation from the provider, Maryvale fully complied with seven of eight elements reviewed in the area of Education and Workforce Readiness.

We found that one child did not attend school as required. She received all failing grades in her April and June 2011 report cards. On May 17, 2011, the child physically assaulted the school principal and was expelled from school. The Vice President of Administrative Services stated that both individual and group incentive for good school attendances have been established on a daily, weekly and monthly basis. The importance of the educational process was discussed in the group's daily community meetings. If a school attendance issue arose, educational and treatment meetings would be scheduled to develop a behavioral/educational plan to deal with the issue. This would include the Maryvale treatment team and school staff.

Recommendation:

Maryvale's management shall ensure:

4. All children attend school as required.

HEALTH AND MEDICAL NEEDS

Based on our review of seven children's files and/or documentation from the provider, Maryvale fully complied with five of six elements reviewed in the area of Health and Medical Needs.

We noted that two children's initial dental examinations were an average of 23 days late due to appointments not being available at their on-site dental office. The Vice President of Administrative Services stated that within the first week after admission, the nursing supervisor should ensure that a dental examination for a new resident was scheduled within the first 30 days of placement. In the event that the appointment could not be scheduled at their on-site dental office, the nursing supervisor would ensure that the dental examination was scheduled at a dental office in the community.

Recommendation:

Maryvale's management shall ensure:

5. Initial dental examinations for all children are completed within 30 days of placement.

PERSONAL RIGHTS AND SOCIAL /EMOTIONAL WELL-BEING

Based on our review of seven children's files and/or documentation from the provider, Maryvale fully complied with 14 of 15 elements reviewed in the area of Personal Rights and Social/Emotional Well-Being.

We noted that five children stated that the food served at Maryvale does not taste good. The Vice President of Administrative Services stated that residents would be encouraged to provide their input regarding food quality via the daily group community meeting and/or via their representatives who participate in the monthly Residential Council meetings, and the information would be transmitted to the Dietary Section and be utilized to improve food services.

Recommendation:

Maryvale's management shall ensure:

6. The children report satisfaction with their meals and snacks.

FOLLOW-UP FROM OHCMD'S PRIOR MONITORING REVIEW

Objective

Determine the status of the recommendations reported in the prior monitoring review.

Verification

We verified whether the outstanding recommendations from our prior review were implemented. The last report was issued February 28, 2011.

Results

The OHCMD's prior monitoring report contained three outstanding recommendations. Specifically, Maryvale was to ensure the following: initial dental examinations for all children were completed within 30 days of placement; the children reported satisfaction with their meals and snacks; and all staff members received timely initial health-screenings, including TB tests.

Based on our follow-up of these recommendations, Maryvale fully implemented one of three recommendations. Maryvale did not implement the recommendations by the Auditor-Controller (A-C) and the OHCMD to ensure all children received timely initial dental examinations and that children reported satisfaction with their meals and snacks. Corrective action was requested of Maryvale to further address the recommendations that were not implemented.

Recommendation:

Maryvale's management shall ensure:

7. Full implementation of the outstanding recommendations from the OHCMD's prior monitoring report, noted in this report as Recommendations 5 and 6.

MOST RECENT FISCAL REVIEW CONDUCTED BY THE AUDITOR-CONTROLLER

A fiscal review of Maryvale has not been posted by the A-C.

November 18, 2011

Ms. [REDACTED]
Department of Children and Family Services
Out of Home Care Management Division
9320 Telstar Avenue
Suite 206
