ORANGE COUNTY CHILDREN'S FOUNDATION GROUP HOME CONTRACT COMPLIANCE MONITORING REVIEW

The Los Angeles County Department of Children and Family Services' (DCFS) Out-of-Home Care Management Division (OHCMD) conducted a review of Orange County Children's Foundation in September 2011, at which time they had three six-bed sites and 13 male placed children.

Orange County Children's Foundation has one site located in the Second Supervisorial District, one site located in the Fourth Supervisorial District, and one site located in Orange County. All three sites provide services to DCFS foster youth. According to their program statement, the stated purpose of Orange County Children's Foundation is to "increase the likelihood that those residents who remain in the program until their 18th birthday will demonstrate a measurable increase in academic and social adaptive skills and a decrease in maladaptive behaviors to enable them to adjust successfully as adults." Orange County Children's Foundation is licensed to serve a capacity of 18 children, ages seven through 18.

For the purpose of this review, five placed children were interviewed and their case files were reviewed. The placed children's overall average length of placement was nine months, and the average age was 16. Three discharged children's case files were reviewed to determine if the destination of placement was per their permanency plan and if the children were meeting their Needs and Services Plan (NSP) goals at time of discharge. Four staff files were reviewed for compliance with Title 22 Regulations and County contract requirements.

"To Enrich Lives Through Effective and Caring Services"

Four children were prescribed psychotropic medication. We reviewed their case file to assess timeliness of Psychotropic Medication Authorizations (PMAs) and to confirm documentation of psychiatric monitoring was maintained as required.

SCOPE OF REVIEW

The purpose of this review was to assess Orange County Children's Foundation's compliance with the County contract and State regulations. The visits included a review of the agency program statement, administrative internal policies and procedures, five children's case files, and a random sampling of personnel files. A visit was made to each site to assess the quality of care and supervision provided to the children, and we conducted interviews with children to assess the care and services they were receiving.

A copy of this report has been sent to the Auditor-Controller (A-C) and Community Care Licensing (CCL).

SUMMARY

Generally, children interviewed reported feeling safe at Orange County Children's Foundation. They reported being provided with good care and appropriate services, being comfortable in their environment and treated with respect and dignity.

Our review revealed the need for Orange County Children's Foundation to develop comprehensive NSPs that meet all the required elements in accordance with the NSP template. Further, it was noted the reward and discipline systems were not appropriate, and the consequence-system was not fair.

Orange County Children's Foundation was receptive to implementing systemic changes to improve compliance with State regulations and the County contract. The Administrator stated that she understood the findings of the review and would develop a Corrective Action Plan (CAP) to address the deficiencies.

NOTABLE FINDINGS

The following are the notable findings of our review:

- Four of the five initial NSPs and none of the updated NSPs reviewed were comprehensive or met all the required elements in accordance with the NSP template. Sections of the NSPs were not properly completed, information regarding concurrent case plan goals and the child's and staff's participation in school-related activities was not documented and information pertaining to school records was not accurate. Educational needs, school related concerns, academic achievements and extra-curricular activities were not identified.

Medical and psychological concerns, the child's visitation plan, permanency goals, and contacts with the Children's Social Worker (CSW) were not documented or addressed in the required sections of the NSPs.

The Administrator reported that the therapists have been retrained to properly identify, document and address all the required elements in accordance with the NSP template. In addition, Orange County Children's Foundation staff attended the January 2012 OHCMD NSP training. The Administrator planned to follow-up to ensure that the initial and updated NSPs were comprehensive and included all the required elements in accordance with the NSP template.

- The rewards and discipline system was not appropriate. The Administrator stated that the rewards and discipline system would be re-evaluated and monetary fines as a form of disciplinary consequence will be discontinued.
- Behavioral consequences were not fair. A child did not have a clear understanding of why he was fined. The group home discontinued the fining system as a consequence for inappropriate behavior.

A detailed report of our findings is attached.

The following report is based on a "point in time" monitoring visit and addresses findings noted during the September 2011 monitoring review.

CONTRACTUAL COMPLIANCE

Based on our review, Orange County Children's Foundation was in full compliance with eight of 10 sections of our contract compliance review: Licensure/Contract Requirements; Facility and Environment; Education and Workforce Readiness, Health and Medical Needs; Psychotropic Medication; Personal Needs/Survival and Economic Well-Being; Discharged Children; and Personnel Records. The following report details the results of our review.

MAINTENANCE OF REQUIRED DOCUMENTATION AND SERVICE DELIVERY

Based on our review of five children's files and/or documentation from the provider, Orange County Children's Foundation fully complied with 10 of 13 elements reviewed in the area of Maintenance of Required Documentation and Service Delivery.

The review revealed initial and updated NSPs were not comprehensive. Four of the five initial NSPs and none of the updated NSPs reviewed were comprehensive, as they did not address all the required elements in accordance with the NSP template. Sections of the NSPs were not properly completed; information regarding concurrent case plan goals and the child's and staff's participation in school-related activities was not documented; information pertaining to school records was not accurate; educational needs, school related concerns, academic achievements and extra-curricular activities were not identified. Medical and psychological concerns, the child's visitation plan and permanency goals were not addressed in the required sections of the NSPs.

It was also determined that contacts with the Children's Social Worker (CSW) by Orange County Children's Foundation staff were not appropriately documented.

The Administrator reported that Orange County Children's Foundation's therapists have been retrained to properly identify, document and address all the required elements in accordance with the NSP template. In addition, the Administrator and staff attended the January 2012 NSP training provided by the OHCMD. The Administrator planned to follow-up to ensure that the initial and updated NSPs were comprehensive, and included all the required elements in accordance with the NSP template.

Recommendations:

Orange County Children's Foundation management shall ensure:

1. The treatment team develops comprehensive initial NSPs, which address all the required elements in accordance with the NSP template.
2. The treatment team develops comprehensive updated NSPs, which address all the required elements in accordance with the NSP template.
3. Monthly contacts with the DCFS CSWs are appropriately documented.

PERSONAL RIGHTS AND SOCIAL/EMOTIONAL WELL-BEING

Based on our review of five children's files and/or documentation from the provider, Orange County Children's Foundation fully complied with 13 of 15 elements reviewed in the area of Personal Rights and Social/Emotional Well-Being.

The review revealed the rewards and discipline system was not appropriate, and consequences for inappropriate behavior were not fair.

Rachel Suit, Assistant Executive Director stated one child was fined one dollar as a form of discipline; however, the fine was not documented. She further stated the child was diagnosed with a Bi-Polar Disorder and Attention Deficit Hyperactive Disorder and, therefore, the child may not have had a clear understanding of why he was fined.

Ms. Suit admitted the fine was not fair, and the dollar was restored to the child's account, and staff discontinued the fine system. The other children did not report they were fined.

Recommendations:

Orange County Children's Foundation management shall ensure:

4. The rewards and discipline system is appropriate.
5. Behavioral consequences are fair for all placed children.

FOLLOW-UP FROM OHCMD'S PRIOR MONITORING REVIEW

Objective

Determine the status of recommendations reported in our prior monitoring review.

Verification

We verified whether the outstanding recommendations from our prior review were implemented. The last report was issued December 8, 2010.

Results

The OHCMD's prior monitoring report contained three outstanding recommendations. Specifically, Orange County Children's Foundation was to ensure the treatment team worked closely with the DCFS CSW to assist the placed children in improving academic performance and/or attendance, the initial and updated NSPs were comprehensive and all the required elements in accordance with the NSP template are addressed. Based on our follow-up of these recommendations, Orange County Children's Foundation fully implemented one of the recommendations.

Recommendation:

Orange County Children's Foundation's management shall ensure:

6. Full implementation of the two outstanding recommendations from the 2010 monitoring report, which are noted in this report as recommendations 1 and 2.
