Wednesday's Child

Meet Alex, a 13 year old who is friendly and engaging. We met Alex at 9 Star skate shop where Alex, thanks to Stacia Oemig of Project Night Light got his very first custom skate board along with a skate pro to teach him tricks of the trade.

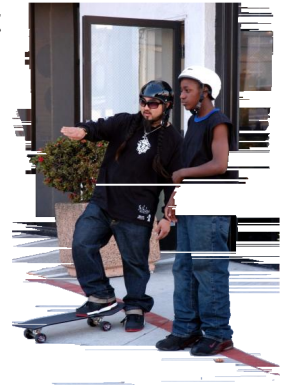

Alex has a physical handicap, he is blind in his left eye, but that doesn't stop him from living life to the fullest and trying out new things. His disability does not impair him from everyday functioning. Alex likes to skateboard so he spent a few hours in the afternoon having a custom board built for him and learning from Bennett Harada, an expert skate instructor.

Like most children in foster care, Alex has had his fair share of disappointments and a sad but very personal story. Despite the difficulties he has had in life, Alex strives to remain positive and he needs the commitment of a permanent family who will accept him for all that he is and who will support him to develop into his full potential.

An exciting day at a skate park, a custom board, expert instruction was what Alex got on this special day. What he really desires is a permanent family call his own, a family that he can extend his love and affection to.
