Ponytails and rides with wheels were just some of our favorite things about this week's Wednesday's Child when we met up with sisters Victoria and Toni for a day of food, fun and play at Chuck E Cheese's. Take a look as we help these two kids just be kids, with the help of the resident mouse!

Victoria (2009) is an active and engaging little girl who loves Hello Kitty and Disney characters but wasn't so sure about our friend Chuck E. Cheese at first. After having a chance to meet the main mouse, Victoria warmed up to Chuck and may even be his newest fan. Victoria has a congenital heart condition and has some developmental delays, but does well in school and in the role of big sister!

Toni (2010) is a vibrant and loving little girl who adores her older sister. Toni is typically sociable and happy and enjoys people, but was a little slow to adjust to this new and somewhat overwhelming environment. Toni is a healthy girl who is on target developmentally and who enjoys playing outdoors or just "hanging out" with her sister.

We are looking for an adoptive family to meet the permanency and other needs of these sisters. If you have the kind of patience and consistency to help these two kids be kids while also guiding them safely through this maze called life, we want to hear from you. To learn more about Victoria and Toni and about adoption, please tune in to Wednesday's Child and give us a call at 1-866-921-ADOPT (2367).
