Population

Population of FY 2002-2003 to FY 2007-2008 (1)

Safety: Exit Indicators

Indicator 1. Percent of cases where children remained home and did not experience any new incident of substantiated referral(s) during case open period, up to 12 months (2)

Indicator 2. Of all children served in foster care in the Fiscal Year, how many have not experienced maltreatment by their foster care providers? (2)

Indicator 3. No recurrence of maltreatment within 6 months (3)

Permanency: Exit Indicators

Indicator 1. Median length of stay for children in foster care (4)

Indicator 2. Reunification within 12 months (4)

Indicator 3. Adoption within 24 months (5)

Indicator 4. Reentry into foster care during the Fiscal Year and reentry within 12 months of the date of reunification (5)

Indicator 5a. Children in foster care less than 12 months with 2 or less placements (6)

Indicator 5b. Children in foster care 12 months but less than 24 months, without a move to a third or greater placement(s) in the second year (6)

Indicator 5c. Children in foster care on the first day of the Fiscal Year who have been in foster care for 24 months or more, and have not experienced a move to a third or greater placement(s) during the Fiscal Year (6)

Appendices: Informational Purposes Only

Safety Indicator 2a. Of all children who initially entered foster care in the Fiscal Year, how many have not experienced maltreatment by their foster care providers? (Appendix 1)

Safety Indicator 2b . Of all children already in foster care on the first day of the Fiscal Year, how many have not experienced maltreatment by their foster care providers? (Appendix 1)

Safety Indicator 2c . Of all children who entered foster care as a result of an FM disruption, how many have not experienced maltreatment by their foster care providers? (Appendix 1)

Safety Indicator 3a. No recurrence of maltreatment within 6 months of a first time substantiated maltreatment allegation (Appendix 2)

Permanency Indicator 1a. Median length of stay for children who were reunified (Appendix 3)

Permanency Indicator 1b. Median length of stay for children who were adopted (Appendix 3)

Permanency Indicator 1c. Median length of stay for children who achieved legal guardianship (Appendix 4)

Permanency Indicator 1d. Median length of stay for children with non-permanency exits (Appendix 4)

Permanency Indicator 1e. Children who exited foster care (Appendix 5)

Permanency Indicator 2a. Reunification in more than 12 months but less than or equal to 15 months (Appendix 6)

Permanency Indicator 2b. Reunification in more than 15 months but less than or equal to 18 months (Appendix 6)

Permanency Indicator 2c. Reunification in more than 18 months (Appendix 7)

Permanency Indicator 3a. Adoption in more than 24 months but less than or equal to 36 months (Appendix 8)

Permanency Indicator 3b. Adoption in more than 36 months (Appendix 8)

Notes:

1. Intent of indicator: Of those children who initially remained home in the Fiscal Year, how many did not experience any new (first occurrence of re-abuse) substantiated referrals during the case open period, up to 12 months?
2. The table above excludes evaluated-out referrals.
3. Children with DMH services are those who received DMH services between 12 months before and 12 months after the DCFS case start date.
4. Data Source is CWS/CMS Datamart as of 8/10/2009.

Safety Indicator 2. Of all children served in foster care in the Fiscal Year, how many did not experience maltreatment by their foster care providers?

(Federal CFR Measure: Methodology specific to Katie A)

Notes:

1. The table above excludes children with abuse/neglect in group homes and guardian homes.
2. Children placed in group homes are not included in this data due to inability of correctly identify and accurately code alleged perpetrator information for these placements.
3. Children placed in guardian homes are not included because DCFS policy identifies legal guardianships as permanent placements and not as out-of-home placements.
4. The table is based on "Soundex" match of perpetrator's name and substitute care provider's name.
5. All children served in foster care includes: children already in foster care on the first day of the Fiscal Year, children who initially entered foster care in the Fiscal Year and children who entered foster care as a result of a FM disruption.
6. Children with DMH services are: children already in foster care on the first day of the fiscal year - those who received DMH services between 12 months before and 12 months after the first day of the fiscal year, children who initially entered foster care in the fiscal year and children who entered foster care as a result of an FM disruption - those who received the DMH services between 12 months before and 12 months after the DCFS case start date.

Notes:

1. *Intent of indicator: Of all children who come into contact with DCFS and were victims of a substantiated maltreatment referral during the 6-month time period, what percent were victims of another substantiated maltreatment referral within the next 6 months?*
2. *The table includes children who had a substantiated referral in the 6-month time period indicated.*
3. *The table above excludes allegations of 'at risk, sibling abused' and 'substantial risk'.*
4. *No maltreatment includes children who were not victims of another substantiated maltreatment referral within 6-months of the initial substantiated referral of maltreatment.*
5. *This is a referral based report and DMH match is not applicable.*

Notes:

1. Intent of indicator: How successful is DCFS at moving children under its supervision into finalized adoption quickly?
2. The table includes all children who exited foster care through adoption within 24 months of removal from home.
3. The table is based on removal date and placement episode end date.
4. Fiscal Year 2007-2008 does not meet the 24 month requirement and the data is unavailable.
5. Children with DMH services are those who received DMH services between 12 months before and 12 months after the DCFS case start date.
6. % equals children adopted within 24 months divided by children initially removed from home.
7. Data Source is CWS/CMS Datamart as of 8/10/2009.

Permanency Indicator 4. Reentry into foster care during the Fiscal Year and reentry within 12 months of the date of reunification (Federal CFSR Measure)

Notes:

1. Intent of indicator: How successful is DCFS at ensuring children successfully remain with their parents after being reunified with parents?
2. The numerator is children who re-entered foster care within 12 months of reunification.
The denominator is children who were reunified during the fiscal year. Placement episodes less than 8 days were included according to the Federal Methodology.
3. Children with DMH services are those who received the DMH services between 12 months before and 12 months after the DCFS case start date.
