

# Academic Mentoring Program

**sponsored by**  
**Project: Caring & Sharing**

**The Academic Mentoring Program** matches children, ages 8 year old to 18 years old, with a enthusiastic volunteer mentor who serves as a role model for students engaged in the learning process. Our academic mentors provide tutoring services as well as serve as a counselor and confidant to the student and ensure the student takes advantage of all resources that are available to help with the learning process.
